ABSTRACT

Inclusive Education (IE) is a new approach towards educating the children with disabilities and learning difficulties with that of normal ones within the same roof. It brings all students together in one classroom and community, regardless of their strengths or weaknesses in any area, and seeks to maximize the potential of all students. It is one of the most effective ways in which to promote an inclusive and tolerant society. About Eighty percent of the Indian population lives in rural areas without provision for special schools. The principle of inclusive education was adopted at the “World Conference on Special Needs Education: Access and Quality” and was restated at the World Education Forum. The Statement solicits governments to give the highest priority to making education systems inclusive and adopt the principle of inclusive Standard Rules on Equalization of Opportunities for a person with Disability proclaiming participation and equality for all. Inclusive Education (IE) is defined as a process of addressing the diverse needs of all learners by reducing barriers to and within the learning environment. It supports. Inclusive Education is a process of strengthening the capacity of the education system to reach out to all learners.
